Using the application of HungaroControl Airbility you can try if you could cope with issues as a flight controller, that is a supAIRhero!

Background: MÁV-Volán-group put to focus of its communication in 2022 to the railway safety related messages, in particular the correct traffic in level railway crossings, mainly because fatalities in such crossings increased dramatically. As part of our education activities we call the attention of road traffic participants to the correct traffic in level crossings among others on billboards, a railway safety roadshow around the Lake Balaton, and in national radio channels.

THREE SERBIANS CAFE

"*You will find the Three Serbians Café at Szerb street 3*" – is what Don Fülög di St. James might say, were he asked for directions in a Rejtő novel. The Three Serbians Café is, on the one hand, a joking reference to the location of the Café but also to the fact that this is the Budapest neighbourhood where the local Serbian community used to live. We wish to continue the area's nation forming, diverse and universal past by running this Café; its name is meant to symbolise this connection. When we envisaged it we wished to recreate the atmosphere of the café culture of the turn of the century, conjuring up a distant past, combined with modern day elements. And we wished to achieve this through the Café's programmes and interior, combining features so of the Hungarian culture, the pure forms inspired Art Nouveau.

With its public life, cultural and educational programmes our Café aims at becoming one of the intellectual workshops of Budapest, continuing the traditions of the Hungarian café culture. In addition to public life and professional presentations and debates we organise arts exhibitions and concerts, literary evenings, film screening and quiz games for anyone who is interested, in Tuszványos a well.

WEDNESDAY, 20 JULY

16:00 Come to Quiz – Legal Activity

What is bail? What is a confidence vote? How would you draw an illustration of a shareholding company? Join our legal Activity game, if you think you know the answer to all of these questions – or if you feel like learning a bit, while having a beer or two.

THURSDAY, 21 JULY

16:00 Knowledge contest - by heart

Put your knowledge to the test in our informal bar quiz. The winner takes it all – or at least a bottle of wine and nobody will be chased by a bear.

FRIDAY 22 JULY

16:00 Intellectual speed dating

Interactive debate evening: the participants are arranged in small groups around the tables. There is a pre-determined topic for every table. And what are they? This will only become known when the envelopes on the tables are opened; each contains a 'problem' and a few guiding questions. Any dividing topic of interest to the public may be touched upon; things that may crop up during any discussion at a café. Each table has 10 minutes for each topic, during which they are expected to bring up their best arguments to defend our positions and convince our partners. The topics and the participants will be changed when the 10 minutes is up. The aim of the programme is to help participants meet new acquaintances, intellectual challengers, and have a fun evening. If you feel like having a relaxing intellectual chill-out or you happen to have an opinion on practically everything and like to have a debate, or hear what others have to say, come and join us!
